

Slitter Spacer

Slitter spacer manufacturer TOA DR Taiwan.

TOA DR slitter spacers can keep stable knife gap,
reach the best slitting quality

The spacer ensures a certain gauge among knives
And offers a horizontal clearance during slitting.

Made of S45C up materials or carbon steel and alloy steel,
and spacers are precisely processed,
grind, and anti-rust proofs.

Both thickness with tolerance of ± 0.001 mm (± 0.00004 inches)
and hardness meet customer requirements.
